

The Third Workshop on Chemical Pulping Processes Karlstad University, Karlstad, Sweden

Date

November 23-24, 2010

Location

Karlstad University, Karlstad, Sweden.

Aim

To bring together researchers and industry representatives to present and discuss research results and trends in the field of chemical pulping of wood including kraft, sulphite and other processes.

Presentation

The conference language will be English.

Invited paper

Papers in the following areas are invited for oral presentations of 30 minutes including time for questions or for posters:

1. Different raw materials for pulping
2. Topochemical fibre modifications during pulping
3. Modelling of process chemistry and physics
4. Cellulose, hemicellulose and hexenuronic acid dissolution during kraft cooking

5. Methods to improve the pulp yield including pulping additives
6. Sulphite pulping
7. Extended oxygen delignification
8. State of the art pulping technology
9. Future pulping processes

Titles of papers including an Abstract of max one page are kindly asked for latest Monday May 31, 2010.

Submission

Please send your Abstract as early as possible but not later than May 31, 2010 to professor Ulf Germgård: ulf.germgard@kau.se
Fax +46(0)547002040, Tel +46(0)547001780,
Department of Chemical Engineering, Karlstad University, SE-651 88
Karlstad, Sweden

Program committee

The work shop programme committee consists of the following experts:

Professor Raimo Alén, University of Jyväskylä, Jyväskylä, Finland
Consultant Göran Annergren, JAG Consulting, Sundsvall, Sweden
Manager Johan Engström, Andritz, Helsinki, Finland
Professor Ulf Germgård, Karlstad University, Karlstad, Sweden
Professor Mikael E. Lindström, Royal Institute of Technology, Stockholm, Sweden
Research manager Fredrik Lundqvist, Innventia, Stockholm, Sweden
PhD Sandra Tapin-Lingua, FCBA, Grenoble, France
Professor Hans Theliander, Chalmers University of Technology, Gothenburg, Sweden
Professor Panu Tikka, SciTech Service Oy Ltd, Espoo, Finland
Professor Adriaan van Heiningen, University of Maine, Orono, USA

Finance

The fee will preliminary be SEK 2750 plus VAT including coffee, lunch and abstract with discounts for PhD-students, programme committee members and speakers. An additional fee of SEK 650 plus VAT will be

charged for those that attend the dinner including the social event in connection to the dinner.

Travel to Karlstad

Karlstad is easy to reach

- by air via Copenhagen or Stockholm
- by train from Stockholm or Gothenburg/Göteborg
- by car (E18).
